Completing POLST

Must be completed by health care professional based on patient preferences and medical indications.

POLST must be signed by a physician to be valid. Verbal orders are acceptable with follow-up signature by physician in accordance with facility/community policy.

Use of original form is strongly encouraged. Photocopies and FAXes of signed POLST forms are legal and valid.

Using POLST

Any incomplete section of POLST implies full treatment for that section.

No defibrillator (including AEDs) should be used on a person who has chosen “Do Not Attempt Resuscitation.”

Oral fluids and nutrition must always be offered if medically feasible.

When comfort cannot be achieved in the current setting, the person, including someone with “Comfort Measures Only,” should be transferred to a setting able to provide comfort (e.g., treatment of a hip fracture).

IV medication to enhance comfort may be appropriate for a person who has chosen “Comfort Measures Only.”

Treatment of dehydration is a measure which prolongs life. A person who desires IV fluids should indicate “Limited Interventions” or “Full Treatment.”

A person with capacity, or the surrogate of a person without capacity, can request alternative treatment.

Reviewing POLST

This POLST should be reviewed periodically and if:

- (1) The person is transferred from one care setting or care level to another, or
- (2) There is a substantial change in the person’s health status, or
- (3) The person’s treatment preferences change.

Draw line through sections A through E and write “VOID” in large letters if POLST is replaced or becomes invalid.
